## Boomwhackers Compositions

Use these graphs to color in and save your song compositions if you are unable to access the Google Chrome Music Lab Song Maker online. Color in squares to match the colors of the Boomwhackers to record your song.

The image shows two identical digital interfaces for a song maker. Each interface is titled "SONG MAKER" and includes a back arrow, a zoom icon, a "Restart" button, and an "About" button. The main area is a grid of 10 rows and 20 columns. The grid is divided into three sections: a 10x4 grid on the left, a 10x8 grid in the middle, and a 10x8 grid on the right. The middle and right sections are shaded light gray, indicating they are the primary areas for coloring in Boomwhacker notes. The grid is currently empty, ready for a student to color in their composition.
